## ABOUT ME

Motivated Front-End Developer with a strong foundation in HTML, CSS, JavaScript, and React.js. Proven ability to create dynamic, user-focused applications with clean and responsive designs. Quick learner and collaborative team player passionate about modern UI/UX trends and innovative web solutions.

## WORK EXPERIENCE

### Teaching Assistant | Youth TeamUp

(Community Impact Project)

Oct 2025 – Present • Bremen, Germany

- Led technical implementation and capacity-building for the Youth TeamUp Project (EU-Funded), linking African and German scientists to deploy IoT/AI solutions against water scarcity and hunger (SDGs 2 & 6).
- Engineered custom IoT/AI infrastructure using WAZIUP and Raspberry Pi for environmental monitoring, while simultaneously facilitating intensive technical training on embedded systems, Python, and cloud integration for youth teams.

### Web Application Developer | Constructor University (SITIS Research Group)

Oct 2025 – Present • Bremen, Germany (Freelance)

- Architecture & Design: Architected a high-performance, modular Single Page Application (SPA) using Tailwind CSS to deliver a responsive, mobile-first user experience.
- Full-Stack Implementation: Built the application using efficient, framework-less vanilla JavaScript for state management, integrated with a lightweight Express.js backend for data handling.

### IT Support | Avaye pishgame Qoo

Feb 2023 – 20025 • Mazandaran, Iran

## EDUCATION

### BS Computer Science

Bremen, Germany

Constructor University

2025 - 2028
